

Quality Policy

CONSTRUCTOR GROUP UK LIMITED

Constructor Group UK Ltd aims are to provide its customers with excellent service in the supply of racking, shelving and associated storage products, which match or exceed their requirements and expectations.

The company is committed to meet the statutory and regulatory requirements that apply to its products, processes and activities, and has implemented a Quality Management System which complies with the standard ISO9001:2008 to assist in this.

The company has set appropriate performance and quality measures to facilitate the continual improvement of the business and quality management system.

To achieve these quality principles and targets, Constructor Group UK will ensure that adequate resources are made available and that staff have the appropriate knowledge, training and experience.

This policy is communicated to all staff who are encouraged to take actions to improve quality and customer service. It will be reviewed periodically as required, but not less than once per year.

Signed

Matt Grierson
